# Orbeez Orbimizer

The people who make Orbeez claim that they grow to 100 times their original size when you add water. Are they telling us the truth? Is it just a bunch of hooey? It's your job to prove them right or wrong!

Exactly what do you think they mean when they say that Orbeez grow to 100 times their original size?

Blank space for student response to the question: "Exactly what do you think they mean when they say that Orbeez grow to 100 times their original size?"

How will you test their statement? Be specific about your plans. What information do you need to know in order to test the claim?

Blank space for student response to the question: "How will you test their statement? Be specific about your plans. What information do you need to know in order to test the claim?"

Sum up your findings here. Were the Orbeez makers truthful? How do you know?
